

The Journal OF THE *House of Representatives*

Number 12

Thursday, March 21, 2013

The House was called to order by the Speaker at 12:42 p.m.

Prayer

The following prayer was offered by the Reverend Jeri Wilson of Freedom Ranch of Moore Haven, upon invitation of Rep. Pigman:

Father, this morning You gave me Psalm 27, 'that I am confident of this, I will see Your goodness, Lord, in the land that we live in.' You make known to us a clear path of life. And, above all else, You remind us to guard our hearts, for out of it is the wellspring of life. Today, that our lives and Your life, Your glory and honor, are bound together in our lives by Your promises and covenants that we can trust. Every day, we receive from You that which we need to discern truth as we rule and reign under Your authority and our families, our counties, our state of Florida, and our nation.

Father, Your vision is that we stay strong and united. Our freedoms have always, and will always be opposed in an attempt to divide us and conquer. But we are born into a world that has always been at war. The life You have given us with our families here, we've had to fight to get it and it's a battle to keep it and pass on this richness.

Jesus, everyone here—we're in, we're in with You in this battle as we submit to Your leadership and Your kingdom rule. You draw out Your sword of the spirit which is the word. And we see how powerful truth is to set us free and to keep us free. And that You clear the fog, You lift the veil, and You give us eyes to truly see, and hearts to truly understand. The glory and honor of You, our God, is men and women fully alive. And the clearest picture of this is usually in a two-year-old or a five-year-old, before the world's ways settle in. The swords You draw out to win this epic battle in our day is Your word to remind us—to remind us of our original glory. We were created in Your likeness and image. You made our hearts—our hearts are good. In You, and You in us. To keep our paths lit up and lead us through the dark times. In this day—in what is to come—we count on You to use Your sword on us. The sword that has a double edge that cuts away and then cures. All that holds us back, You cut it away. And usually what holds us back is our selfish nature, and You cut it away. And You teach us to be skillful with that same sword, to cut away those lies that hold our children and our people captive to addictions, violence, and darkness.

And, as we remember that everything we have is really Yours, Father, it's not ours. We are Your stewards. We are in You and You are in us and as our ways please You, even our enemies are at peace with us. There are so many twists and turns and ambushes. We need You intimately to walk this narrow path with us. Bless every man and every woman in this place of leadership that You have called us up into—into Your big story. Restore in us Your vision for our nation—all nations You've designed each uniquely different for a very good reason. The government is on Your shoulders. You offer us life, You

offer us wisdom beyond knowledge, and we receive it all. Jesus, in Your name, Amen.

The identity of each person making a uniform contribution must be reported to the department in the same form as other contributors by July 1 of each calendar year or no later than the 60th day immediately preceding the primary election.

(c) The filing officer shall make available to any candidate or committee a reporting form which the candidate or committee may use to indicate contributions received by the candidate or committee but returned to the contributor before deposit.

Amendment 1 (with title amendment)—Remove everything after the enacting clause and insert:

Section 1. Paragraph (g) of subsection (1), paragraph (j) of subsection (2), paragraphs (d) and (e) of subsection (3), paragraph (a) of subsection (4), and paragraphs (c) and (h) of subsection (6) of section 373.4592, Florida Statutes, are amended, and paragraph (h) is added to subsection (4) of that section, to read:

373.4592 Everglades improvement and management.—

(1) FINDINGS AND INTENT.—

(g) The Legislature finds that the Statement of Principles of July 1993, the Everglades Construction Project, and the regulatory requirements of this section provide a sound basis for the state's long-term cleanup and restoration objectives for the Everglades. It is the intent of the Legislature to provide a sufficient period of time for construction, testing, and research, so that the benefits of the Long-Term Plan Everglades Construction Project will be determined and maximized prior to requiring additional measures. The Legislature finds that STAs and BMPs are currently the best available technology for achieving the ~~interim~~ water quality goals of the Everglades Program and that implementation of BMPs, funded by the owners and users of land in the EAA, effectively reduces nutrients in waters flowing into the Everglades Protection Area. A combined program of agricultural BMPs, STAs, and requirements of this section is a reasonable method of achieving ~~interim~~ total phosphorus discharge reductions. The Everglades Program is an

appropriate foundation on which to build a long-term program to ultimately achieve restoration and protection of the Everglades Protection Area.

(2) DEFINITIONS.—As used in this section:

(j) "Long-Term Plan" or "Plan" means the district's "Everglades Protection Area Tributary Basins Conceptual Plan for Achieving Long-Term Water Quality Goals Final Report" dated March 2003, as subsequently modified in accordance with paragraph (3)(b), and the district's "Restoration Strategies Regional Water Quality Plan" dated April 27, 2012, as may be subsequently modified pursuant to paragraph (3)(b) modified herein.

(3) EVERGLADES LONG-TERM PLAN.—

(d) ~~The Legislature recognizes that the Long-Term Plan contains an initial phase and a 10-year second phase. The Legislature intends that a review of this act at least 10 years after implementation of the Long-Term Plan initial phase is appropriate and necessary to the public interest. The review is the best way to ensure that the Everglades Protection Area is achieving state water quality standards, including phosphorus reduction, and the Long-Term Plan is using the best technology available. A 10-year second phase of the Long-Term Plan must be approved by the Legislature and codified in this act prior to implementation of projects, but not prior to development, review, and approval of projects by the department.~~

(e) The Long-Term Plan shall be implemented ~~for an initial 13-year phase (2003-2016)~~ and shall achieve water quality standards relating to the phosphorus criterion in the Everglades Protection Area as determined by a network of monitoring stations established for this purpose. Not later than December 31, 2008, and each 5 years thereafter, the department shall review and approve incremental phosphorus reduction measures.

(4) EVERGLADES PROGRAM.—

(a) Everglades Construction Project.—The district shall implement the Everglades Construction Project. By the time of completion of the project, the state, district, or other governmental authority shall purchase the inholdings in the Rotenberger and such other lands necessary to achieve a 2:1 mitigation ratio for the use of Brown's Farm and other similar lands, including those needed for the STA 1 Inflow and Distribution Works. The inclusion of public lands as part of the project is for the purpose of treating waters not coming from the EAA for hydroperiod restoration. It is the intent of the Legislature that the district aggressively pursue the implementation of the Everglades Construction Project in accordance with the schedule in this subsection. The Legislature recognizes that adherence to the schedule is dependent upon factors beyond the control of the district, including the timely receipt of funds from all contributors. The district shall take all reasonable measures to complete timely performance of the schedule in this section in order to finish the Everglades Construction Project. The district shall not delay implementation of the project beyond the time delay caused by those circumstances and conditions that prevent timely performance. The district shall not levy ad valorem taxes in excess of 0.1 mill within the Okeechobee Basin for the purposes of the design, construction, and acquisition of the Everglades Construction Project. The ad valorem tax proceeds not exceeding 0.1 mill levied within the Okeechobee Basin for such purposes shall also be used for design, construction, and implementation ~~of the initial phase of the Long-Term Plan, including operation and maintenance, and research for the projects and strategies in the initial phase of the Long-Term Plan, and including the enhancements and operation and maintenance of the Everglades Construction Project and shall be the sole direct district contribution from district ad valorem taxes appropriated or expended for the design, construction, and acquisition of the Everglades Construction Project unless the Legislature by specific amendment to this section increases the 0.1 mill ad valorem tax contribution, increases the agricultural privilege taxes, or otherwise reallocates the relative contribution by ad valorem taxpayers and taxpayers paying the agricultural privilege taxes toward the funding of the design, construction, and acquisition of the Everglades Construction Project. Notwithstanding the provisions of s. 200.069 to the contrary, any millage levied under the 0.1 mill limitation in this paragraph shall be included as a separate entry on the Notice of Proposed Property Taxes pursuant to s. 200.069. Once the STAs are completed, the district shall allow these areas to be used by the public for recreational purposes in the manner set forth in s. 373.1391(1), considering the suitability of these lands for such uses. These lands shall be made available for recreational use unless the district~~

governing board can demonstrate that such uses are incompatible with the restoration goals of the Everglades Construction Project or the water quality and hydrological purposes of the STAs or would otherwise adversely impact the implementation of the project. The district shall give preferential consideration to the hiring of agricultural workers displaced as a result of the Everglades Construction Project, consistent with their qualifications and abilities, for the construction and operation of these STAs. The following milestones apply to the completion of the Everglades Construction Project as depicted in the February 15, 1994, conceptual design document:

1. The district must complete the final design of the STA 1 East and West and pursue STA 1 East project components as part of a cost-shared program with the Federal Government. The district must be the local sponsor of the federal project that will include STA 1 East, and STA 1 West if so authorized by federal law;

2. Construction of STA 1 East is to be completed under the direction of the United States Army Corps of Engineers in conjunction with the currently authorized C-51 flood control project;

3. The district must complete construction of STA 1 West and STA 1 Inflow and Distribution Works under the direction of the United States Army Corps of Engineers, if the direction is authorized under federal law, in conjunction with the currently authorized C-51 flood control project;

4. The district must complete construction of STA 3/4 by October 1, 2003; however, the district may modify this schedule to incorporate and accelerate enhancements to STA 3/4 as directed in the Long-Term Plan;

5. The district must complete construction of STA 6;

6. The district must, by December 31, 2006, complete construction of enhancements to the Everglades Construction Project recommended in the Long-Term Plan and initiate other pre-2006 strategies in the plan; and

7. East Beach Water Control District, South Shore Drainage District, South Florida Conservancy District, East Shore Water Control District, and the lessee of agricultural lease number 3420 shall complete any system modifications described in the Everglades Construction Project to the extent that funds are available from the Everglades Fund. These entities shall divert the discharges described within the Everglades Construction Project within 60 days of completion of construction of the appropriate STA. Such required modifications shall be deemed to be a part of each district's plan of reclamation pursuant to chapter 298.

(h) After completion of all projects and improvements in the Long-Term Plan, the district shall complete a use attainability analysis to determine if those projects and improvements will achieve the water quality based effluent limits established in permits and orders authorizing the operation of those facilities.

(6) EVERGLADES AGRICULTURAL PRIVILEGE TAX.—

(c) The initial Everglades agricultural privilege tax roll shall be certified for the tax notices mailed in November 1994. Incentive credits to the Everglades agricultural privilege taxes to be included on the initial Everglades agricultural privilege tax roll, if any, shall be based upon the total phosphorus load reduction for the year ending April 30, 1993. The Everglades agricultural privilege taxes for each year shall be computed in the following manner:

1. Annual Everglades agricultural privilege taxes shall be charged for the privilege of conducting an agricultural trade or business on each acre of real property or portion thereof. The annual Everglades agricultural privilege tax shall be \$24.89 per acre for the tax notices mailed in November 1994 through November 1997; \$27 per acre for the tax notices mailed in November 1998 through November 2001; \$31 per acre for the tax notices mailed in November 2002 through November 2005; and \$35 per acre for the tax notices mailed in November 2006 through November 2013.

2. It is the intent of the Legislature to encourage the performance of best management practices to maximize the reduction of phosphorus loads at points of discharge from the EAA by providing an incentive credit against the Everglades agricultural privilege taxes set forth in subparagraph 1. The total phosphorus load reduction shall be measured for the entire EAA by comparing the actual measured total phosphorus load attributable to the EAA for each annual period ending on April 30 to the total estimated phosphorus load that would have occurred during the 1979-1988 base period using the model for total phosphorus load determinations provided in chapter 40E-63,

Florida Administrative Code, utilizing the technical information and procedures contained in Section IV-EAA Period of Record Flow and Phosphorus Load Calculations; Section V-Monitoring Requirements; and Section VI-Phosphorus Load Allocations and Compliance Calculations of the Draft Technical Document in Support of chapter 40E-63, Florida Administrative Code - Works of the District within the Everglades, March 3, 1992, and the Standard Operating Procedures for Water Quality Collection in Support of the Everglades Water Condition Report, dated February 18, 1994. The model estimates the total phosphorus load that would have occurred during the 1979-1988 base period by substituting the rainfall conditions for such annual period ending April 30 for the conditions that were used to calibrate the model for the 1979-1988 base period. The data utilized to calculate the actual loads attributable to the EAA shall be adjusted to eliminate the effect of any load and flow that were not included in the 1979-1988 base period as defined in chapter 40E-63, Florida Administrative Code. The incorporation of the method of measuring the total phosphorus load reduction provided in this subparagraph is intended to provide a legislatively approved aid to the governing board of the district in making an annual ministerial determination of any incentive credit.

3. Phosphorus load reductions calculated in the manner described in subparagraph 2. and rounded to the nearest whole percentage point for each annual period beginning on May 1 and ending on April 30 shall be used to compute incentive credits to the Everglades agricultural privilege taxes to be included on the annual tax notices mailed in November of the next ensuing calendar year. Incentive credits, if any, will reduce the Everglades agricultural privilege taxes set forth in subparagraph 1. only to the extent that the phosphorus load reduction exceeds 25 percent. Subject to subparagraph 4., the reduction of phosphorus load by each percentage point in excess of 25 percent, computed for the 12-month period ended on April 30 of the calendar year immediately preceding certification of the Everglades agricultural privilege tax, shall result in the following incentive credits: \$0.33 per acre for the tax notices mailed in November 1994 through November 1997; \$0.54 per acre for the tax notices mailed in November 1998 through November 2001; \$0.61 per acre for the tax notices mailed in November 2002 through November 2005, and \$0.65 per acre for the tax notices mailed in November 2006 through November 2013. The determination of incentive credits, if any, shall be documented by resolution of the governing board of the district adopted prior to or at the time of the adoption of its resolution certifying the annual Everglades agricultural privilege tax roll to the appropriate tax collector.

4. Notwithstanding subparagraph 3., incentive credits for the performance of best management practices shall not reduce the minimum annual Everglades agricultural privilege tax to less than \$24.89 per acre, which annual Everglades agricultural privilege tax as adjusted in the manner required by paragraph (c) shall be known as the "minimum tax." To the extent that the application of incentive credits for the performance of best management practices would reduce the annual Everglades agricultural privilege tax to an amount less than the minimum tax, then the unused or excess incentive credits for the performance of best management practices shall be carried forward, on a phosphorus load percentage basis, to be applied as incentive credits in subsequent years. Any unused or excess incentive credits remaining after certification of the Everglades agricultural privilege tax roll for the tax notices mailed in November 2013 shall be canceled.

5. Notwithstanding the schedule of Everglades agricultural privilege taxes set forth in subparagraph 1., the owner, lessee, or other appropriate interestholder of any property shall be entitled to have the Everglades agricultural privilege tax for any parcel of property reduced to the minimum tax, commencing with the tax notices mailed in November 1996 for parcels of property participating in the early baseline option as defined in chapter 40E-63, Florida Administrative Code, and with the tax notices mailed in November 1997 for parcels of property not participating in the early baseline option, upon compliance with the requirements set forth in this subparagraph. The owner, lessee, or other appropriate interestholder shall file an application with the executive director of the district prior to July 1 for consideration of reduction to the minimum tax on the Everglades agricultural privilege tax roll to be certified for the tax notice mailed in November of the same calendar year and shall have the burden of proving the reduction in phosphorus load attributable

to such parcel of property. The phosphorus load reduction for each discharge structure serving the parcel shall be measured as provided in chapter 40E-63, Florida Administrative Code, and the permit issued for such property pursuant to chapter 40E-63, Florida Administrative Code. A parcel of property which has achieved the following annual phosphorus load reduction standards shall have the minimum tax included on the annual tax notice mailed in November of the next ensuing calendar year: 30 percent or more for the tax notices mailed in November 1994 through November 1997; 35 percent or more for the tax notices mailed in November 1998 through November 2001; 40 percent or more for the tax notices mailed in November 2002 through November 2005; and 45 percent or more for the tax notices mailed in November 2006 through November 2013. In addition, any parcel of property that achieves an annual flow weighted mean concentration of 50 parts per billion (ppb) of phosphorus at each discharge structure serving the property for any year ending April 30 shall have the minimum tax included on the annual tax notice mailed in November of the next ensuing calendar year. Any annual phosphorus reductions that exceed the amount necessary to have the minimum tax included on the annual tax notice for any parcel of property shall be carried forward to the subsequent years' phosphorus load reduction to determine if the minimum tax shall be included on the annual tax notice. The governing board of the district shall deny or grant the application by resolution adopted prior to or at the time of the adoption of its resolution certifying the annual Everglades agricultural privilege tax roll to the appropriate tax collector.

6. The annual Everglades agricultural privilege tax shall be: for the tax notices mailed in November 2014 through November 2026, ~~2016 shall be~~ \$25 per acre; for the tax notices mailed in November 2027 through 2029, \$20 per acre; for the tax notices mailed in November 2030 through 2035, \$15 per acre; and for the tax notices mailed in November 2036 ~~2017~~ and thereafter, ~~shall be~~ \$10 per acre. Proceeds from the tax shall be used for design, construction, and implementation of the Long-Term Plan, including operation and maintenance, and research for the projects and strategies in the Long-Term Plan, including the enhancements and operation and maintenance of the Everglades Construction Project.

(h) In recognition of the findings set forth in subsection (1), the Legislature finds that the assessment and use of the Everglades agricultural privilege tax is a matter of concern to all areas of Florida, ~~and~~ The Legislature intends this act to be a general law authorization of the Everglades agricultural privilege tax within the meaning of s. 9, Art. VII of the State Constitution and further intends that payment of the tax, in addition to payment of the cost of continuing implementation of BMPs, fulfills ~~complies with~~ the obligations of owners and users of land under s. 7(b), Art. II of the State Constitution.

Section 2. Beginning in the 2013-2014 fiscal year and each year thereafter through the 2023-2024 fiscal year, the sum of \$12 million in recurring general revenue funds and \$20 million in recurring funds from the Water Management Lands Trust Fund is appropriated to the Department of Environmental Protection for the Restoration Strategies Regional Water Quality Plan. This section shall take effect July 1, 2013.

Section 3. Except as otherwise expressly provided in this act, this act shall take effect upon becoming a law.

TITLE AMENDMENT

Remove everything before the enacting clause and insert:
